Introduction to Your ActivPanel Nickel

The ActivPanel Nickel is designed to provide you with everything you need, right out of the box. It is Internet-ready and preloaded with teaching tools.

The front of your ActivPanel Nickel features menu options to adjust the volume, access the Unified Menu, and switch sources.

Your ActivPanel Nickel has a preinstalled Unified Menu that contains the most commonly used tools right at your fingertips. These tools include our beloved Whiteboard and Annotate apps, the ability to capture anything on your screen, easily switch sources to connected devices, and ActivCast for mirroring.

Best of all, the Unified Menu is accessible from the bottom, left, and right sides of the ActivPanel, to allow you seamless mobility and plenty of access for your students.
To locate all of your favorite apps, tools, files, and settings, in one location, select the Locker icon from the Unified Menu.

Our Promethean App Suite is also preinstalled, and it is full of all the perfect supplements to your lessons, regardless of grade level or content area, including the Timer, Spinner, Annotate, Screen Share, and Whiteboard. These apps were developed specifically from in response to teacher feedback, and they are accessible from the Unified Menu and the Locker.

Additional features of your ActivPanel Nickel include Wi-Fi, 15 points of touch, powerful audio, front-facing ports, and an onboard Android 8 operating system.
The Promethean remote allows you to navigate your ActivPanel from anywhere in the classroom.

1. **INSTANT POWER ON**: Turn your ActivPanel on.

2. **NAVIGATE AND SELECT**: Use the arrows to navigate to the option of your choice. Press the checkmark to select your option.

3. **VOLUME**: Use + to increase and – to decrease your ActivPanel’s volume.

4. **UNIFIED MENU**: Use to access your Locker and Promethean apps.

5. **SOURCE**: Use to switch to any device connected to your ActivPanel.

6. **BLANK SCREEN**: Use to instantly have nothing visible on the ActivPanel.

7. **FREEZE**: Use to freeze the current image on the screen.
Connecting to the Internet

To connect your ActivPanel to the internet, select the **Unified Menu**, then tap **Locker**.

Select the **Settings** icon. Tap **More Settings**.

Select **Network & Internet**. If you have an Ethernet cable connected, this is where you can complete the process.

To connect to a wireless network, toggle the Wi-Fi switch **on**. Select your desired wireless network and input a password if necessary.

Once you have successfully connected, you will see a confirmation below the network name.
Unified Menu

The Unified Menu is preinstalled and easily accessible from the bottom, left and right sides of the ActivPanel’s screen. The Unified Menu provides quick access to Promethean apps, the Locker and Sources.

1. **BACK**: The Back button returns you to the previous screen.
2. **LOCKER**: The Locker is a personal space for you to access Apps, Files, Settings, and Lock Screen.
3. **HOME**: The Home button returns you to the home screen from any application.
4. **WHITEBOARD**: The Promethean Whiteboard app is an instant whiteboard with several annotation tools, math tools, concept maps, infinite space, and the ability to turn any content into a collaborative activity with our multi-user mode.
5. **CAPTURE**: Capture takes a snapshot of the current screen and places it into the Whiteboard for interaction with all the Whiteboard tools.
6. **ANNOTATE**: The Annotate app floating on top of any device connected to your ActivPanel, providing you the ability to annotate on top of anything.
7. **SOURCE**: Source allows you to quickly access devices that are connected to your ActivPanel.
8. **ACTIVCAST**: ActivCast is a Promethean app that allows any device (iPad, Chromebook, smartphone, laptop, etc.) to mirror to your ActivPanel.
9. **OPEN APPS**: Navigating between apps is simple. Select open apps and choose the app you would like to interact with.
Adjusting Brightness

To adjust the brightness on your ActivPanel, select the **Unified Menu**, then tap **Locker**.

Choose the **gear icon** to access Settings. **Press and slide** the brightness bar forward or backwards until you achieve the desired brightness.
Adjusting Volume

To adjust the volume on your ActivPanel, select the **Unified Menu**, then tap **Locker**.

Choose the **gear icon** to access Settings. **Press and slide** the volume bar forward or backwards until you achieve the desired level.
Large Mode

Large Mode increases the size of the icons on the Unified Menu. To enable Large Mode, select the Unified Menu, then tap Locker.

Choose the gear icon to access Settings. Tap Large Mode.

Now you may enjoy larger icons, no matter where you choose to access the Unified Menu.
More Settings

To access network connections, find information about your apps, and to fully customize your ActivPanel experience, you will want to visit More Settings. To access More Settings, select the **Unified Menu**, then tap **Locker**.

Choose the **gear** icon to access **Settings**. Tap **More Settings**.

![Settings interface with More Settings selected](image)
Turning Panel Speakers On or Off

There may be instances in which you wish to disable your ActivPanel’s speakers. To change this setting, begin by accessing your Unified Menu, then tap Locker.

Next, select the gear icon on the left to go to the Settings tab within your Locker. Choose More Settings.

Within More Settings, select Audio.

Toggle the panel speakers off or on to best meet your instructional needs. You may return to this setting at any time.
Changing Your Wallpaper

There may be instances in which you wish to change the wallpaper on your ActivPanel’s home screen. To do this, begin by accessing your **Unified Menu**, then tap **Locker**.

Next, select the **gear** icon on the left to go to the **Settings** tab within your Locker. Choose **More Settings**.

Within More Settings, select **Display**.

Choose **Wallpapers**. Tap **My Photos** in the bottom left corner to locate the image you wish to use for your new wallpaper. This could be an image saved to your panel or from a connected USB drive.

Once you have chosen a new image, tap **Set Wallpaper** in the upper left corner. Next, choose **Home Screen**. The wallpaper is updated immediately. You may change it again at any time.
Lock Screen

Screen locking provides you the option to temporarily lock and unlock your ActivPanel for those instances when you may need to leave it unattended.

To lock your screen, access the **Unified Menu**, then the **Locker**.

Select the **padlock icon** on the left side of your Locker.

Next, enter a four-digit code of your choice. Tap the **Lock** button once complete.

The screen is now locked. To unlock, re-enter your four-digit code and tap the **Unlock** button. You will be returned to the Locker.
The Locker is a personal space for you to access apps, files, and settings. You can access your Locker from any of the three Unified Menu locations.

There are four icons on the left side of the locker: Apps, Files, Settings, and Lock Screen.

**Apps** allows you to access preinstalled Promethean apps such as Annotate, Timer, Spinner, Screen Share, and Whiteboard, as well as any apps you have installed on connected devices such as an ActivConnect OPS-G or Promethean Chromebox.

Tap the **folder icon** to access Files. In Files, you may view and access files saved to your ActivPanel or from a connected USB drive.

Tap the **gear icon** to access Settings. In Settings, you may quickly change ActivPanel settings such as brightness or volume, and access more settings.

Tap the **padlock icon** to access Lock Screen and temporarily lock your ActivPanel with a four-digit code.
Introduction to the Promethean Whiteboard App Toolbar

Access the Promethean Whiteboard App from your **Unified Menu** or **Locker**. The Whiteboard toolbar resides on the left side of the window by default.

*Tap once to select the tool and twice to access additional widths.*
Promethean Capture App

The Promethean Capture app allows you to capture and crop anything displayed on your panel’s screen, enabling you to organically create lessons and activities.

To use Capture, access the Unified Menu, then tap **Capture**.

You will see two options: **Open in Whiteboard** or **Close**. To use the entire image, select **Open in Whiteboard**.

You may move, resize, and rotate the image in Whiteboard as you wish. Add annotations, interact with math tools, and more.

To crop a captured image, access the Unified Menu, tap **Capture**, then use the sizing handles to modify the image as you wish. Tap **Done** to finalize cropping.

You will once again have the options to **Open in Whiteboard**, or **Close**. You may wish to save this new Promethean Whiteboard file.
The Promethean Annotate App is perfect for adding annotations over anything displaying on your panel’s screen, empowering you to make the most of teachable moments. You may also use it over top of connected devices.

To access, tap the **Unified Menu**, then the **Annotate** app. It is also accessible from your **Locker**.

The toolbar appears. Drag to move it anywhere on your screen. Choose between a **Pen** and a **Highlighter**. Tap the **Pen** or **Highlighter** button once more to change its width. Choose from five ink colors.

Use the **Eraser** to erase a bit of an annotation, or use **Clear All Annotations** to start fresh.

Tap the **Eye button** to exit annotate mode and interact with apps on your screen. Tap the Eye button once more to return to annotate mode and continue annotating.

Use the **Undo** and **Redo** buttons to make quick corrections.

Tap the **X** to exit the app. All annotations will disappear on closing the app.
Switching Sources

To access devices connected to your ActivPanel, including a laptop, you may need to switch sources. To switch to another source, tap the **Unified Menu**, then the **Source** button.

Source options will appear. Tap whichever one you wish.

You may still access the Unified Menu and Promethean Apps over top of connected devices.

To return to your ActivPanel home screen, simply tap the **Home** button from the **Unified Menu**.
The Promethean ActivCast App allows students to mirror or cast their devices to your ActivPanel. To use ActivCast, select the Unified Menu, then tap ActivCast.

The Mirroring Status Screen displays the names of mirrored devices, the QR Connect Code and Connection ID, the name of your ActivPanel, wired and wireless IP addresses, and an option to generate a PIN code. When a PIN is set, students will be prompted to enter the PIN on their devices, providing added security.

Note: You can mirror up to four devices at the same time.

Depending on students’ devices, they may need to install the ActivCast Sender App prior to mirroring. It is available for free in the Google Play Store.

When a student wishes to mirror their device, you will need to tap Allow or Deny. This is a second layer of security.

During mirroring, tap the View icon in the bottom left corner to display the names of mirrored devices. To return to the Mirroring Status Screen, tap the Exit icon in the bottom right corner. From the Mirroring Status Screen, tap the blue Mirror View button to return to mirrored devices.

Double tap on any mirrored device to display it in fullscreen mode.

To disconnect a mirrored device from the Mirror View page, simply swipe up. To disconnect a mirrored device from the Mirroring Status Screen, tap the X next to the device’s name.
Promethean Screen Share App: Connecting Devices

The Promethean Screen Share app allows you to quickly connect and cast or mirror student devices and lends itself perfectly to classroom collaboration and student-driven learning.

To begin, please be sure you are using an Elements Series ActivPanel and are running firmware version 3.2 or higher. To update your ActivPanel Nickel’s firmware, please visit https://support.prometheanworld.com/article/1744/.

There are three types of devices you may use to connect.

To download the sender for your device, visit share.mypromethean.com. When you click Download Screen Share, the site will detect your device and download the appropriate version.

To begin connecting devices, access your Unified Menu, then tap Locker. Select the Promethean Screen Share App.
A floating window appears. You may move this anywhere on your screen. You may name your panel, tap the reset button to generate a new 6-digit panel ID, or tap the people icon to enter the waiting room.

To connect from a computer with the Share Screen Sender, enter the panel ID. Next, enter your name, and be sure to enable touchback. Then select Enter Waiting Room.
Students will enter the panel ID and their name within the Chrome extension or the mobile app. Then select Start Screen Share.

Connected devices will display within the Waiting Room. Tap a student’s name to share a single screen or select up to four students to share simultaneously. Once you have selected their names, tap the orange Share button at the bottom of the waiting room window.
**Promethean Screen Share App: Waiting Room**

The Promethean Screen Share app allows you to quickly connect and cast or mirror student devices – and lends itself perfectly to classroom collaboration and student-driven learning.

To access the Screen Share waiting room, begin by opening your **Unified Menu**, then tap **Locker**.

![Unified Menu]

Locate the **Promethean Screen Share App**.

![Screen Share]

When the floating window appears on your panel’s screen, tap the **people** icon.

![Enter Panel Name]

As students connect their devices, you will see them appear in your Waiting Room. You may have up to 39 devices in your waiting room.
Select any name from the Waiting Room list to mirror this student’s device to your ActivPanel. Or tick the boxes next to students’ names to mirror up to 4 devices simultaneously. Once you have selected their names, tap the orange Share button at the bottom of the Waiting Room window.

A green dot next to a student’s name denotes that they have enabled Touchback. Please note: Touchback is currently only available for Windows and Mac devices.

To remove a student, simply tap the X next to their name. You will be prompted to confirm their removal.
Within the Waiting room, you also may sort students by position or alphabetically.

1. Tap the gear for **Settings**. We recommend Good Quality for environments with low bandwidth and Best Quality for those with high bandwidth. You may also adjust name display settings.

2. Tap the circular arrows to **refresh** your Panel ID. This will also disconnect currently connected devices. This may come in handy if you have a new class of students entering the classroom or if you share your classroom with another teacher.

3. Tap the diagonal arrows to **minimize** the Waiting Room and return to the floating Screen Share window. Tap the people icon to return to the Waiting Room.

4. Finally, tapping the X will result in closing Screen Share and ending the casting session. You will be prompted to confirm your choice.
Promethean users have been asking for Touchback capabilities and we’ve heard you! The Promethean Screen Share app now allows for Touchback on connected Windows and Mac devices, allowing you to interact with and navigate these devices in real time.

When students connect using Windows or Mac, they will have the opportunity to enable Touchback.

In the Waiting Room, a green dot next to a student’s name denotes that they have enabled Touchback.
When a student casts their screen with Touchback enabled, their device’s screen will be framed in bright green. This is an example of the student’s computer screen:

Likewise, when casting a student device with Touchback enabled, this screen will also be framed in bright green on your panel, as shown below for the screen in the bottom right quadrant:

With Touchback enabled, you may navigate connected devices in real time. Possible classroom examples include becoming untethered, sharing applications or programs, allowing students to display work and demonstrate learning, and more.
Recent Apps

The Recent Apps button within the Locker allows you to easily toggle between various apps on your ActivPanel. To access Recent Apps, select the Unified Menu, then tap Recent Apps.

This displays all of your recently opened applications, including apps from connected devices such as an ActivConnect OPS-G or Promethean Chromebox.

Depending on how many apps you currently have open, there may be multiple pages, denoted by small white dots at the bottom of the Recent Apps window. Swipe to the right or left to navigate between pages.

To return to any of these open apps, simply select the app.

To close apps, much like you do on your smart phone, simply tap the little x to the bottom right of an app.
The Promethean Store

The preinstalled Promethean Store is a terrific place for locating engaging educational apps to enhance your instruction. To access the Promethean Store, select the **Unified Menu** and tap **Locke**r.

On the **Apps** tab of the Locker, locate the **Promethean Store**.

![Promethean Store Icon](image)

Within the store, you may search by using the headers along the top of the window or the search function in the top right corner.

Simply tap **Install** to install the app on your ActivPanel. You may need to confirm the installation once more.

Once an app is installed, you may open it or return to the store to browse for more apps. Remember that installed apps will also automatically display within your Locker for easy access. Should you have more than one page of apps, simply swipe left or right to navigate between pages.
Installing Apps from the Promethean Store

The Promethean Store has a wide variety of educational apps to help supplement your teaching and engage students. To install apps from the Promethean Store, select the **Unified Menu**, then tap **Locker**.

From the **Apps** page within the Locker, select **Promethean Store**.

Once in the store, you may use the tabs to help you locate apps or utilize the search option in the top right corner.
Once you have selected an app, simply tap **Install** to begin the installation process. You may be prompted to confirm installation once more.

Once an app has finished installing, you will receive a confirmation and two options: **Done** and **Open**. Should you tap **Done**, you will be returned to the app page, at which point you may open the app, or use the back arrow in the top left corner to return to the Promethean Store and continue browsing apps. Tap **Open** to immediately open the newly installed app.
Managing Apps

To manage apps installed on your Elements Series ActivPanel, for instance changing notification settings, select the **Unified Menu**, then tap **Locker**.

Select the **gear** icon to access Settings. Tap **More Settings**.

Select **Apps** from the Settings menu.

Your apps are listed alphabetically. Scroll to the desired app you wish to view in more detail and tap its **title**.

On the App Info screen, you may need to scroll down to view all of the app’s information.

Tap the back arrow in the top left corner to return to your list of apps. Alternatively, you can tap the **Home button** from the **Unified Menu** to return to the home screen.
Locating Apps

The Locker houses all of your apps, including those from connected devices such as a Promethean Chromebox or ActivConnect OPS-G.

To locate apps, access the Unified Menu and tap Locker.

The Locker will automatically open to the Apps tab, but you also can access it by tapping the cube icon to access Apps.

Depending on the number of apps you have installed, there may be more than one page. Pages are denoted by small white dots at the bottom of the Locker window. **Swipe right or left** to navigate between these pages.
Rearranging Apps

You may rearrange your installed apps within the Locker for quick access and to best accommodate your teaching.

To rearrange apps, access the Unified Menu and tap Locker.

The Locker will automatically open to the Apps tab, but you also can access it by tapping the cube icon to access Apps.

Depending on the number of apps you have installed, there may be more than one page. Pages are denoted by small white dots at the bottom of the Locker window. Swipe right or left to navigate between these pages.

To rearrange your apps, much as you do with your smart phone, simply press and hold the app while you drag it to the desired location. You may move an app to a new location within a page, or to another page.
Closing Apps

To close apps on your Elements Series ActivPanel, select the **Unified Menu**, then tap **Recent Apps**.

![Unified Menu](image1)

Depending on how many apps you currently have open, there may be multiple pages, denoted by small white dots at the bottom of the Recent Apps window. Swipe to the **right** or **left** to navigate between pages.

To close apps, much like you do on your smartphone, simply tap the little **x** to the bottom right of an app.

![Recent Apps](image2)
Uninstalling Apps

To uninstall apps from your Elements Series ActivPanel, select the **Unified Menu**, then tap **Locker**.

Select the gear icon to access Settings. Tap **More Settings**.

Select **Apps** from the Settings menu.

Your apps are listed alphabetically. Scroll to the desired app you wish to uninstall and tap its **title**.

Tap the **Uninstall** button to begin the uninstallation process.

You may be prompted once more to confirm your choice to uninstall.

Once uninstallation is complete, you will briefly receive a small confirmation at the bottom of your screen and will be returned to the app list.
Accessing Content from Your USB

There are a few ways to access files on your ActivPanel. This method describes accessing content from a USB using the Files Tab in the Locker.

First, insert your USB into one of the USB ports on your ActivPanel. Next, access the **Unified Menu** and tap **Locker**. In the Locker, select the **Files** tab.

You will see your USB listed below “This Panel.” **Tap** to select it.

Rather than double-tapping to open a file, you will instead need to tap the **three vertical dots** next to a file name. Choose between **Open** and **Delete**.

Note: You will want to ensure that you have the appropriate apps installed to open your documents. For example, you will need the PowerPoint app installed to open a PPT from your USB.
Downloading Files

There are a few ways to access files on your ActivPanel. This method describes accessing content from a USB by using the Files app from the Apps tab in the Locker, then copying, or downloading, that content to the ActivPanel.

First, insert your USB into one of the USB ports on your ActivPanel. Next, go the Unified Menu and tap Locker. In the Locker on the Apps tab, you will see an app titled Files. Select it.

This takes you to a Downloads window. Locate your USB by tapping the three horizontal lines in the top left corner.

Select your USB from the menu that appears.

You will see the content from your USB listed here. Press any file for two seconds to select it. Once one file is selected, you may select additional files simply by tapping them.

Once one or more files is selected, tap the three vertical dots in the top right corner. To download these selected files to your ActivPanel, choose Copy to... from the menu that appears.

The Downloads screen reappears, this time with options in the bottom right corner. Select the blue Copy button.

You will be returned to your USB. To confirm that your files were downloaded successfully, tap the three horizontal lines in the top left once more, and select Downloads.
Creating Bookmarks in the Chromium Browser

To bookmark your favorite websites for easy access in the preinstalled Chromium browser, begin by selecting the **Unified Menu**, then tap **Locker**. In the Locker, select the **Chromium** app.

Enter or search for the URL you wish to bookmark. Tap the **three vertical dots** in the top right corner and select the **star icon** from the menu that appears. This bookmarks your page.

You will receive a brief confirmation at the bottom of the screen that the website has been bookmarked.

Tap the **three dots** in the top right once more and notice the star is now blue, indicating that this URL is now bookmarked. From this menu, select **Bookmarks** to modify your existing bookmarks.

Tap the **three vertical dots** next to a bookmark for more options. You may edit bookmarks, move them into folders, and delete them.

To visit a bookmarked website, tap **Select**. Then, tap the **three vertical dots** on the blue header to reveal options.
Connecting a Laptop to Your ActivPanel

To connect your laptop to your ActivPanel, begin with either a VGA or HDMI cable and a USB cable. The VGA or HDMI enables a visual connection, while the USB cable enables touch.

Ports on your ActivPanel are clearly labeled.

If you are connecting a Mac to your ActivPanel using a VGA cable, you may need an additional adapter or dongle. You may also require an audio cable.
You will find additional ports on the back of your ActivPanel. When facing the panel, they are on the left side.

Once you have connected, access the **Unified Menu** and tap **Source** to toggle over to your computer. On an ActivPanel Titanium, you may also use the **Source** button on your **Center Console**.

Remember, you always have access to the Unified Menu, even over connected devices. This means you will also have access to the Promethean App Suite.

Use the **Home** button from the **Unified Menu** to return Home at any time.

For more information or to receive assistance, please visit [support.prometheanworld.com](http://support.prometheanworld.com).
Connecting an ActivConnect OPS-G to Your ActivPanel

To connect your ActivConnect OPS-G to your ActivPanel, begin by ensuring you are running the most up-to-date firmware. Please visit support.prometheanworld.com/update and/or https://support.prometheanworld.com/article/1744/ for more information.

Install the ActivConnect OPS-G in the OPS slot on the side of the ActivPanel. Next, ensure your ActivConnect OPS-G is ready to connect to your ActivPanel. Visit https://support.prometheanworld.com/article/1753 for more information.

Access the Unified Menu and tap Source. Select OPS to switch over to your ActivConnect OPS-G.

You will want to ensure your ActivPanel and ActivConnect OPS-G are connected to the same internet network.

Next, locate your ActivPanel’s serial number by opening the Unified Menu, then the Locker. Select the Update icon from the apps tab in the locker. Make note of the serial number which is found at the bottom left corner of the Update window.

Open the Unified Menu once more and tap Source, then select OPS to return to the ActivConnect OPS-G.
Swipe down from the top of the screen to display notifications, and tap on the notification that reads “Cannot find Panel Serial number in...”

Enter the ActivPanel’s serial number and tap OK. The serial number is not case sensitive.

The ActivConnect OPS-G screen will update. The app bubbles and the pink menu button on the home page will disappear.

You can confirm that the integration is complete by swiping down from the top of the screen and the notification will now read “Connected IP...”

From now on, all apps installed on the OPS-G can now be found within the Locker for easy access.

For more information or to receive assistance, please visit support.prometheanworld.com.
Connecting a Promethean Chromebox to Your ActivPanel

To connect your Promethean Chromebox to your ActivPanel, begin by ensuring you are running the most up-to-date firmware. Please visit support.prometheanworld.com/update and/or https://support.prometheanworld.com/article/1744/ for more information.

Connect your HDMI and USB cables into the **HDMI 2** and **USB 2** ports.

Plug in the power adapter and power your Chromebox **on**. You will also need a Google account.

Access the **Unified Menu** and tap **Source**. Select **HDMI2** to switch over to your Chromebox.
Tap in the bottom right of the Chromebox desktop to access some basic settings. You will want to ensure your ActivPanel and Chromebox are connected to the same internet network.

You may need to log into your Google account at this point. Go to the Google Play Store to locate and install the Promethean Chromebox Utility App.

Next, locate your ActivPanel’s serial number by opening the Unified Menu, then the Locker. Select the Update icon from the Apps tab in the Locker. Make note of the serial number which is found at the bottom left corner of the Update window.
Open the **Unified Menu** once more and tap **Source**, then select **HDMI2** to return to the Chromebox.

Tap to open the **Chromebox notification area** at the bottom right of the screen. There will be two notifications.

One notification will say “Please enable usage access by clicking here” and the second will say “Click to Set Panel Serial number.”

To enable usage access, tap “**Please enable usage access by clicking here**”. Once you tap the notification you will be taken to a settings screen where you can enable the usage access by toggling the **button** to the right.

You may need to first tap on the **Promethean Chromebox Utility App** to get to the enable access page.
Next, tap the “Click to Set Panel Serial number” notification. You will be presented with a dialog box. Enter the ActivPanel’s serial number and tap OK. The serial number is not case sensitive.

You should now see a message that the Promethean Chromebox Utility has connected to an IP address, signifying that the Chromebox and the ActivPanel are now connected.

You can check the status of the connection to your panel at any time by tapping on the notification area at the bottom right of the Chromebox desktop and the Promethean Chromebox Utility app will show it is connected.

From now on, all apps from your Promethean Chromebox will appear within your Locker for easy access.

For more information or to receive assistance, please visit support.prometheanworld.com.
Adding Apps from the Google Play Store
Using Your Promethean Chromebox

To add apps from the Google Play Store using your Promethean Chromebox, please ensure that your Chromebox is first successfully integrated with your ActivPanel.

Access the Unified Menu, then tap Source. Select HDMI2 to switch to your Chromebox.

From the menu along the bottom of your Chromebox desktop, select the Google Play Store.

Once you have located an app you wish to install, simply tap Install.

Once the app is installed on your Chromebox, you may open it from this window. But remember for future use, it will always reside within your Locker.

Simply tap the app within the Locker to open it.
